

JESCOHYDRATILT™ DUMPERS

The time tested construction of **JESCOHUSKYDUMPER** is now available in hydraulically controlled dumping hoppers. These new units are **ideal where control of the quantity of material dumped or the speed of discharge is critical**. These new units **operate off the hydraulic system of your forklift and come complete with quick-disconnects for easy attachment to the forklift**. The operator controls the unit from the forklift seat. Fork pockets are spaced 28" on center. Available in 1/2, 3/4, 1, 1 1/2 and 2 cubic yard capacities. All units have a 4000 lbs weight capacity. Painted Vista Green. **Manufactured to order, 8 weeks minimum lead time.**
