

JESCOBARRIER®

Wire mesh guarding systems provide an excellent method of defining work areas, aisle ways, or departments. With the proper layout you are able to restrict unnecessary traffic and direct the flow of materials in a plant or warehouse. These systems are quickly installed with standard hand tools. Layout changes may be accomplished with little or no waste. The Panel System allows barrier to be relocated and used again as the need grows. 8" sweep

space. All hardware and anchors included. Panels are painted dark gray. Posts are yellow.

JESCO® PARTITION SYSTEMS

Extra heavy duty all welded steel construction using 2" x 1" x 10 gauge woven rectangular mesh. Steel angle frame is 1 1/4" x 1 1/4" x 1/8". Doors equipped with padlock lugs as standard, cylinder lock optional. Ideal where security is required. Provide a sketch and we will do the rest. For complete assembly, hardware and floor anchors are included. Standard 3 inch sweep height. This wire partition comes pre-engineered for easy installation. No special tools required. When relocation is required, disassembly and assembly is made easy. This system allows for full visibility without air, light or heat restriction. Standard color is dark gray (PM9017).
